15	Large system-font accessibility	Pass	Student confirmed interface remains readable with larger system text.
16	All individual validation rules separately checked	Pass	Student confirmed each validation rule rejects invalid input as expected.

Issues and Notes

Final result: All 16 functional test cases passed, as confirmed by the student, along with APK independent launch, app icon, and splash screen checks. No failed or pending checks. Profile-picture changes worked correctly on TECNO C16 (Android 13).

Evidence note: The following screenshots document the app icon and principal screens. The student reported passing interaction-based tests; those interactions are not individually demonstrated by the screenshots below.
